Virtual Reality (VR) Goggles

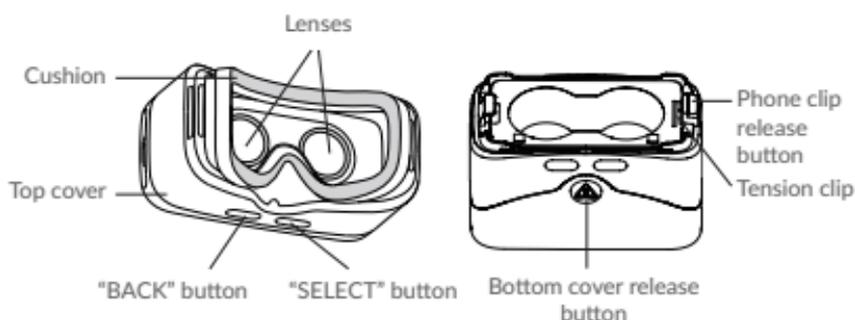

Quick Start Guide

Compatible with the
Alcatel Idol 4 Smartphone

Getting started

About the Virtual Reality (VR) Goggles

With your Alcatel VR Goggles, experience virtual reality and enjoy 2D and 3D content such as games, videos and other VR applications with your Idol 4 smartphone.

Note: Buttons are touch-sensitive and do not need to be pressed.

Using the VR goggles for the first time

VR set-up

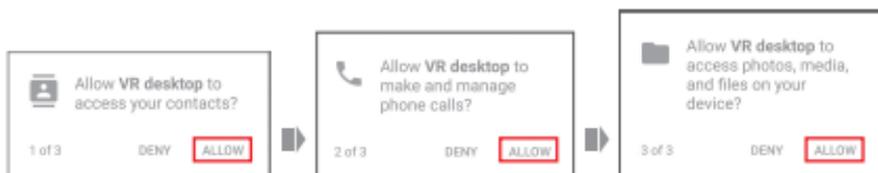

During initial set-up, you must accept permissions prior to placing the Idol 4 into the VR goggles.

1. Enable Littlstar permissions following the steps below:

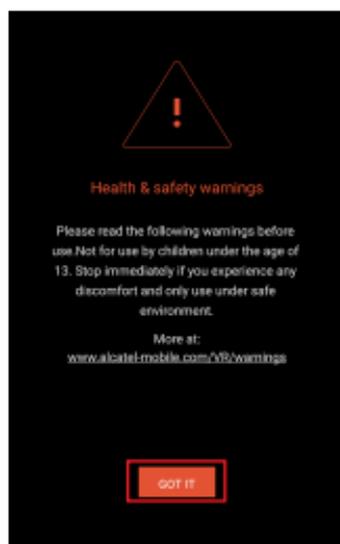

- On your device, tap Settings  > Apps.
- Tap Littlstar VR Cinema  > permissions.
- Turn on storage permission by moving the switch to the right until it turns green. 

2. From the Idol 4 Apps menu, select the "VR Launcher" application. 

3. Accept all the necessary permissions by tapping "Allow" for each the first time.

4. Read safety warning and tap "Got it" to accept.

5. Select "OPEN" to start VR display mode and insert your device into the VR goggles .

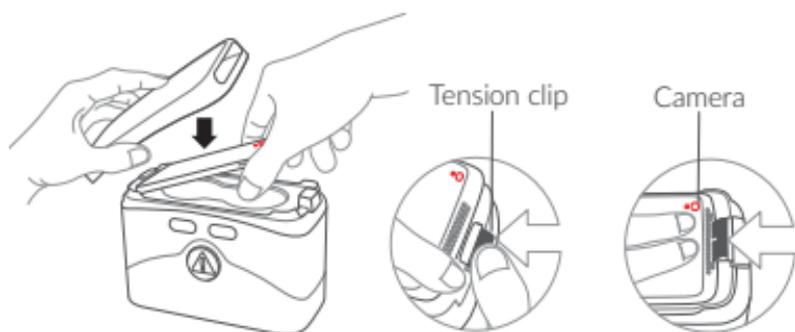

Preparing your VR goggles

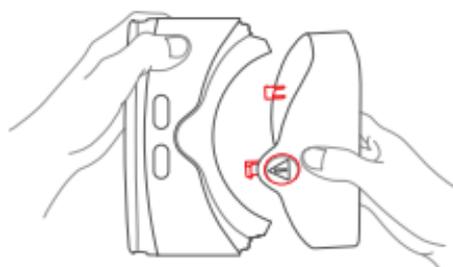

1. Place your fingertips in the slot and pull the top cover outward to open. Prior to use, remove the protective covering from both sides of the lenses, and the "BACK" and "SELECT" buttons.

2. Make sure your device is powered on and the screen unlocked. Firmly press down on the clip release button to pull tension clip back. Carefully insert the device (Screen facing down with the camera to the right) at an angle into the center of the VR goggles and push down until tension clip clicks. Place the top cover back on.

3. Press the  button to remove the bottom cover.

4. Hold the VR goggles with two hands. Find the BACK (<) (left) and SELECT (o) (right) buttons on the bottom. The buttons are touch-sensitive and do not need to be pressed with force. Use these buttons to navigate while in the VR launcher.

Notes:

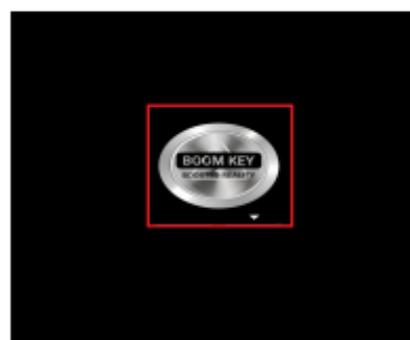

- Make sure device clicks into place or it may fall out and be damaged.
- Use a lens cleansing cloth to keep the lenses clean.

- Keep your face clean and dry while wearing the VR goggles. The foam cushioning may deteriorate over time from sweat.

Warning: Pull the bottom cover gently while pushing  button or the clip may be broken.

The VR Launcher Tutorial

When first opening the VR Launcher, you will see the following tutorial with instructions on how to navigate and store content. The VR goggles recognize your head movement. Move your head to highlight an item and tap the SELECT (o) button. Select "NEXT" to move through the screens and "FINISH" to exit the tutorial.

Using the VR Launcher

You can download VR photos, videos and games from the VR Store or Littlstar, or watch streaming content in the launcher via Littlstar.

Games

Access and play all installed VR games. Supported games will be added here automatically when installed.

VR Launcher Settings

While in the VR Launcher, look down and to the right or left to reveal and select settings.

Brightness: Aim the pointer at the  or  and touch the SELECT button to darken or brighten the screen.

Volume: Aim the pointer at the  or  and touch the SELECT button to raise or lower the volume.

Look & Wait: This feature allows you to select an item by aiming the pointer at it for 3 seconds. Aim the pointer at the  for 3 seconds to turn this on or off.

Note: Not all VR applications and screens support Look & Wait.

Health and Safety information

People suffering from seizures, loss of awareness, or other symptoms linked to an epileptic condition should consult a doctor before using the VR goggles.

The VR goggles should not be used by children under 13. Children above 13 should be monitored by an adult as using it may affect the hand-eye coordination, balance, and multi-tasking abilities.

Use only in safe environments. Avoid using it outdoors, near other people, pointed objects, stairs, balconies, or in situations that require attention such as cycling, driving, or walking.

Do not use the VR goggles when you are tired, under the influence of alcohol or drugs, hung-over, under emotional stress or anxiety, in need of sleep, suffering from a cold, flu, headaches, migraines, or earaches, or have digestive problems.

Take a 15 to 30 minute breaks after every 15 minutes of use. Prolonged use of the VR goggles can make your muscles, joints, or skin hurt. If this occurs, rest for several hours before resuming use.

The VR launcher requires a higher amount of power than normal. When using it for an extended period, your device may become hot. Stop using and close the VR features or applications, remove your device from the VR goggles and wait until your device cools down before resuming use. This is normal and does not affect your device's lifespan or performance.
