

Device highlights

- 6" Max Vision display gives you a better view of websites, games and more
- Go a full day-and-a-half on a single charge with the 5000mAh battery¹
- Charge with TurboPower™ to get up to 6 hours of power in just 15 minutes of charging²
- Capture sharp photos and selfies even in low light with the 12MP rear camera and 8MP front camera
- Use the fingerprint reader to wake up your phone and unlock it instantly
- Keep your phone protected from accidental spills with a water-repellent coating³
- Intuitive Moto Experiences for simple shortcuts to things you do most

Voice & audio

- A secondary microphone to detect and reduce ambient noise
- A front-ported speaker to always play loud and clear audio
- Multiple music/audio formats supported
- Listen to your favorite radio stations with the NextRadio® app
- HD Voice for crystal clear conversations⁴

Camera & video

- Focus in an instant with laser autofocus
- Burst shot: long press shutter button to get multi photos in a second
- Panorama: capture more with this amazing wide angle view
- Manual mode: manually adjust camera settings
- HDR: combine multiple frames into one to capture the best light
- Beautification: automatic or manual selfie beautification
- Scanner: built-in barcode/QR code scanner
- Video stabilization: digital video stabilization for videos
- Slow motion: take videos in slow motion

Moto Experiences

Moto Actions

- Chop phone twice to turn flashlight on or off
- Twist your wrist twice while holding phone to open camera
- Place 3 fingers on screen to take a screenshot
- Swipe to shrink screen for a better one-hand use
- Pick up phone to switch to vibrate mode when it rings
- Flip phone to turn on do not disturb to silence notifications and calls

Moto Display

- Reply to emails/messages and access other actions from lockscreen (require application's support)
- Control your music with pause/play and other controls even without unlocking phone
- Always see battery level on the lockscreen
- Automatically adjust screen to warmer tones at night
- Keep your screen on when you look at it

Suggestions

- Get personalized advice on optimizing storage room and battery performance

Cricket services

- Pre-loaded with My Cricket, Cricket Wi-Fi Manager and Cricket Visual Voicemail

Accessories included

- Charger/Cable

Specifications

Network frequency	FDD LTE Bands 1/2/3/4/5/8/12/14/30/66 WCDMA Bands 1/2/4/5/8 GSM 850/900/1800/1900 MHz
Operating system	Android 8.0 Oreo™
Display	6" HD+ 1440x720
Processor	Qualcomm® Snapdragon™ 435 processor with 1.4GHz octa-core CPU and Adreno 505 GPU
Memory ⁵	3GB RAM, up to 32GB internal memory Supports up to 128GB microSD card
Rear camera	12MP with LED flash, 1080P FullHD video
Front camera	8MP with flash
Wi-Fi®	802.11 a/b/g/n, 2.4GHz + 5GHz
Dimensions	6.37 x 2.96 x 0.37 in.
Weight	6.7 oz.
Talk time ¹	Up to 43 hours
Standby time ¹	Up to 381 hours
Battery	5,000mAh (non-removable)
HAC	M4/T3
Charging solution	microUSB, TurboPower™

¹All battery life claims are approximate and based on a standard mixed use profile. The mixed use profile is based on Motorola devices on major 4G LTE networks with excellent coverage and includes both usage and standby time. Out-of-box settings are applied to the mixed use profile to project battery performance. Actual battery performance will vary and depends on many factors including signal strength, network configuration, age of battery, operating temperature, features selected, device settings, and voice, data, and other application usage patterns. ²Battery must be substantially depleted; charging rate slows as charging progresses. Charger sold separately in some markets. ³Advanced nano-coating technology creates a water repellent barrier to help protect against moderate exposure to water such as accidental spills, splashes or light rain. Not designed to be submersed in water, or exposed to pressurized water, or other liquids. Not waterproof. ⁴To experience Cricket HD Voice, both callers must have a compatible HD voice capable smartphone and make the call over Cricket's LTE Network or a compatible network. Cricket's LTE coverage is not equivalent to its overall network coverage. HD voice calls made on a compatible device on Cricket's LTE network may not experience an HD voice connection during times of network congestion. Other carriers networks may interoperate with Cricket's LTE network to support an HD voice call. ⁵Supports up to 128GB microSD card, microSD cards sold separately. Content with DRM restrictions may not be able to be moved to the card. Certain features, functionality and product specifications may be network dependent and subject to additional terms, conditions, and charges. All are subject to change without notice.
