

## **Samsung Galaxy Amp Prime 2 Software Update: July 2017 Android Security Software and Samsung User Experience Improvements Update**

### **Overview:**

Effective 7/25/17, a new software update (J327AZTUU1AQF1) will be available for those Samsung Galaxy Amp Prime 2 customers who have software version J327AZTUU1AQC1 on their phone. This update will provide Google security patches and Samsung user experience improvements. Cricket will push this software update to customers, prompting them to install the software update to their phone.

### **Software Download/Additional Information:**

- You can only download this software over Wi-Fi.
- The download and installation time can vary depending on network conditions, WiFi Signal strength and bandwidth

### **Getting Started:**

Before proceeding with the update, make sure you have confirmed the following:

- Make sure that all tasks have been saved. During installation, the phone will not be operable till the installation is completed.
- Confirm that you are connected to Wi-Fi.
- Make sure that the battery is fully charged.

## Update Process:

1. When the software notification is received, you will see the following screen:

2. You will have the option to download immediately or postpone until a later time.

To download immediately:

To postpone downloading:

3. Once the installation is complete, the phone will re-start.

## Verifying Software Version

Below are the steps to check your software version and to manually update the software to the new version (J327AZTUU1AQF1).

To check your SW version:

1. From any home screen, swipe up or down to reveal the **Apps** menu, and then touch **Settings**.
2. Scroll down and touch **About phone**
3. Look under **Build number** which will list the software version. If you are on software version **J327AZTUU1AQC1**, you can update to version **J327AZTUU1AQF1**.

To manually update the SW:

1. Ensure the phone is fully charged, is connected to Wi-Fi, and all data on phone has been backed-up.
2. From any home screen, swipe up or down to reveal the **Apps** menu, and then touch **Settings**.
3. Scroll down and click on **Software update**.
4. Select **Check for updates** option. The software will download and, when complete, the phone will restart.
