

### Device highlights

- Large 4000mAh battery gives you up to 36 hours of power on a single charge<sup>1</sup>
- Get hours of power in minutes of charging with the included rapid charger<sup>1</sup>
- 5.7" Max Vision display gives you more screen and less bezel providing a better view for all your entertainment
- Never miss the shot with a fast focusing 13MP rear camera
- Instantly unlock your phone with a touch using the fingerprint reader
- Get all the processing power you need with a 1.4GHz quad-core processor<sup>2</sup>
- Keep your phone protected from accidental spills with a water repellent coating<sup>3</sup>
- Moto Experiences provides simple shortcuts to things you do most

### Voice & audio

- Get incredible sound with Dolby<sup>®</sup> Audio support
- A front-ported speaker to always play loud and clear audio
- Multiple music/audio formats supported
- Listen to your favorite radio stations with the NextRadio<sup>®</sup> app
- A secondary microphone to detect and reduce ambient noise
- HD Voice for crystal clear conversations<sup>4</sup>

### Camera & video

- Focus in an instant with phase detection autofocus (PDAF)
- Professional mode: manually adjust camera settings
- Panorama: capture more with this amazing wide angle view
- HDR: combine multiple frames into one to create one beautiful picture
- Burst shot: long press shutter button to capture multiple photos instantly
- Beautification: smooth skin and remove blemishes making your selfies look even better
- Scanner: built-in barcode/QR code scanner
- Video stabilization: digital video stabilization for videos
- Slow motion: take videos in slow motion

### Moto Experiences

#### Moto Actions

- Chop phone twice to turn flashlight on or off
- Twist your wrist twice while holding phone to open camera
- Place three fingers on screen to take a screenshot
- Swipe to shrink screen for easier one-handed use
- Pick up phone to switch to vibrate mode when it rings

<sup>1</sup>Battery must be substantially depleted; charging rate slows as charging progresses. All battery life claims are approximate and based on a mixed use profile (which includes both usage and standby time) under optimal network conditions. Actual battery performance will vary and depends on many factors including signal strength, network configuration, age of battery, operating temperature, features selected, device settings, and voice, data, and other application usage patterns. <sup>2</sup>Individual core processing speeds vary, and may not reach the maximum speed indicated. <sup>3</sup>Advanced nano-coating technology creates a water repellent barrier to help protect against moderate exposure to water such as accidental spills, splashes or light rain. Not designed to be submerged in water, or exposed to pressurized water, or other liquids; Not waterproof. <sup>4</sup>To experience Cricket HD Voice, both callers must have a compatible HD voice capable smartphone and make the call over Cricket's LTE Network or a compatible network. Cricket's LTE coverage is not equivalent to its overall network coverage. HD voice calls made on a compatible device on Cricket's LTE network may not experience an HD voice connection during times of network congestion. Other carriers networks may interoperate with Cricket's LTE network to support an HD voice call. <sup>5</sup>Moto Display functionality varies based on the app being used. <sup>6</sup>Requires creating a Lenovo ID, Moto Key software download for your computer, a minimum of Bluetooth<sup>®</sup> 2.1 support on your computer, Windows 7 or later versions of the Windows operating system, compatible internet browser support on the computer - Chrome browser v56 or later - Internet Explorer 10/11. <sup>7</sup>MicroSD card sold separately. Storage capacity is approximate.
